Beadwork has been known since ancient times. From ancient times, craftswomen admired their magnificent embroidery skills, first with pearls, and then from the middle of the 17th century with colored glass beads. Clothes were decorated with bugle, paintings were embroidered with images of different landscapes, churches, icons, etc. In our time, beadwork has become popular again. Elements of beads are used in the decoration of clothing, which gives it an original and neat look. Many styles in fashion do not do without beaded jewelry. Beads, as a material, have unlimited color possibilities, it is also available to everyone thanks to the Czech company Preciosa Ornela. Modern needlewomen not only successfully decorate clothes, but also shoes, purses, cases and handbags. Beadwork is very popular in patterns and sets depicting flowers, birds, animals and other subjects. For many women, beadwork has become a favorite hobby. This kind of creativity requires special skills, patience, dexterity and accuracy. Great mood and developed imagination play a big role.
