## Junior Manual QA

### To Natalia Vinnytska, Onseo

Good day!

Dear HR Manager,

My name is Mykhailo FILIMONCHUK. On the robota.ua job search site, I found an open vacancy for the position of Junior Manual QA, and I would like to offer you my candidacy. I am convinced that my personal characteristics, professional skills and acquired skills and knowledge will effectively affect the work in your company.

I completed manual testing courses at the International Academy "IT Life". I don't have experience working in IT structures yet, but I have a burning desire to get to know this area and work in your team.

Brief information about my professional and personal qualities:

- I have experience in managing personnel (I have held management positions for over 7 years);
- I have educational skills in working with personnel (service in the army - 29 years);
- I have basic knowledge of manual testing, familiar with the rules of compiling test documentation, certain skills in using Jira, TestRail and Postman;

Basic personal qualities: determination, efficiency and stress resistance.

I am ready to undergo a personal interview, during which I will be able to tell more about myself.

Sincerely, Mykhailo.
