ABOUT ME

As a frontend developer with over 3 years of experience, I specialize in creating dynamic and responsive user interfaces using a variety of technologies. Throughout my career, I have continuously sought to expand my knowledge and skills in frontend development, staying up-to-date with the latest technologies and best practices.

WORK EXPERIENCE

LECHNER SOFT

Kharkiv

Nov 2021 - Mar 2023

Middle Frontend Developer (React js)

Responsibilities:

- Plan and implement features from the scratch: create feature implementation design, split into tasks, control process.
- Implemented new functional modules (components) for the existing pages and for the new implemented pages (from scratch) using React.
- Implemented REST API (from scratch).
- Wrote comprehensive tests for React components to ensure their functionality and performance.
- Participation in Code Review processes as a reviewer.
- Participation in Refactoring and Performance optimization parties.
- Created maintainable, cross browsers and reusing web pages using HTML/CSS features.

• Evaluated and became knowledgeable in new standards, technologies, and trends in website development.

Used Skills: React, TypeScript, Scss Modules, Webpack, Redux-Toolkit, React-Hook-Form, React-Testing-Library, Jest, Ant-Design, Material UI.
