

Konstancja Jaworska

Full-Stack Web Developer

Summary

Thank you for taking your valuable time!

My objective is to serve you better than ever with my maximum devotion.

I love helping my customers, and so proudly do my business in delight until your needs are met by satisfaction.

During working as a software developer for 12+ years, I've gained a vast experience and skills in software engineering field.

So no worry about software development from A to Z.

In a word, I'm an expert problem solver. No matter what the bug you have, what the solution you are looking for.

Up to today, I've successfully developed/solved so many projects and problems / bugs with various technologies, tools and languages.

My expertise allows me to build robust, clean, stable and reusable components/modules in any programming language scopes but it doesn't allow me to write dirty codes.

Attentiveness, responsibility, technical thinking, poise, concentration, a high degree of self-organization, discipline, focus on achieving results.

I always keep in mind that I grow with my customers. Let us make things better.

Happy working!

Skill Highlights

- Project management
- Strong Communication
- Complex problem solver
- Quick-Delivery of Work
- Service-focused
- Full-time & Hardworking

Experience

Team Player for Building Coin Trading MarketPlace Products (Freelancing Job)
Hourly Based Blockchain Engineer & Back-end & Front-end Developer (Full-Stack) -

01/2019 to 12/2021

Client: Jason (Team Manager US)

- Building Ethereum Platform based Smart Contract using Solidity.
