Natallia Mirukova
QA ENGINEER

Profile

Hi! I'm Natalli. I'm a QA Engineer with over 1 year of experience. I have practic experience with already started projects as well as projects from scratch. Team player with strong communication skills, self-motivated and attentive to details. Clear understanding of the QA process and responsibilities using testing types, testing techniques. Knowledge of mobile and web testing with experience in Agile project management: Scrum and Kanban. Experience in working with test documentation and requirements analysis.

I can think outside the box and I'm very hardworking and responsible person, but i try to keep a work-life balance. I'm interested in learning something new and solving different tasks.
