Quests

In this section, you are able to earn rewards by completing simple quests. The Quest Hub is divided into two sections: Daily and Weekly Quests.

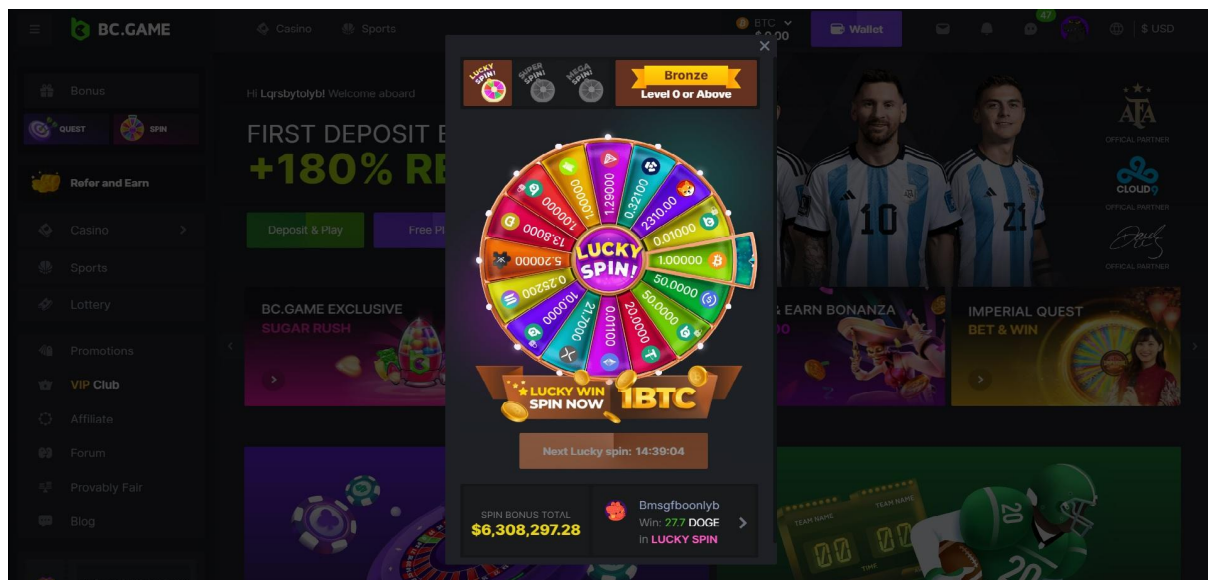

Daily Quests

Here, you can earn rewards by completing simple profile information and security objectives. Complete quests like password setting, placing a single bet, verifying an email, 2FA setup, and profile photo setup in order to get BCD rewards.

Weekly Quests

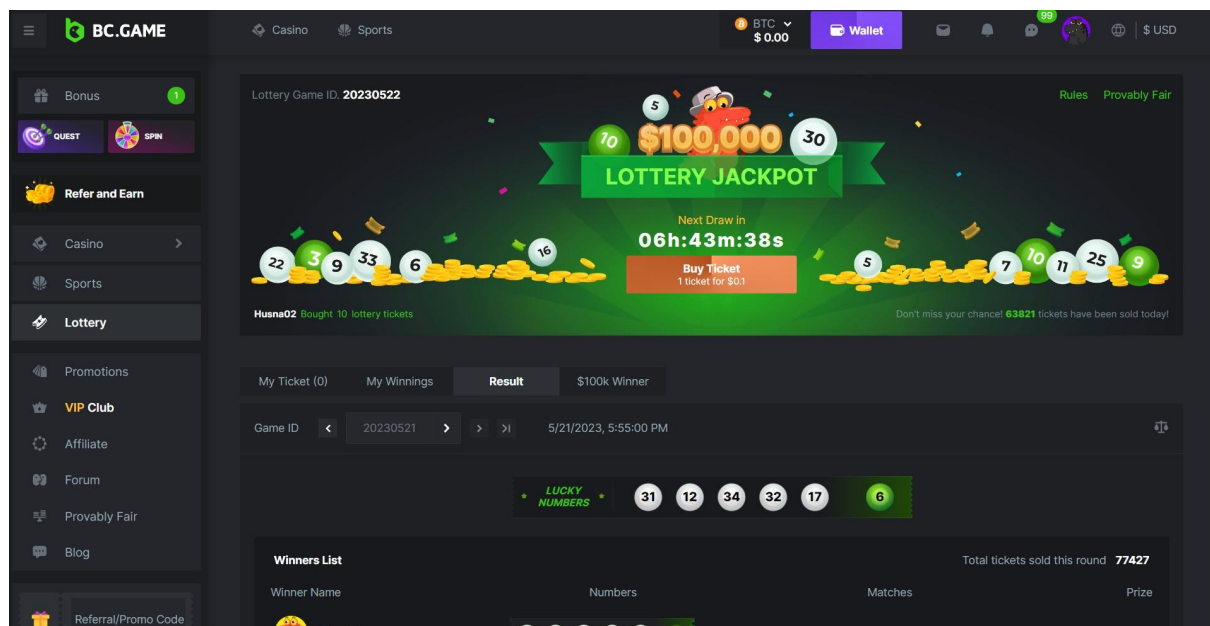

At this time, there is a single weekly quest available - wager quest. In case your weekly wager reaches 700 USD or more, you are eligible for a 0.7 BCD reward.

Lucky Spin

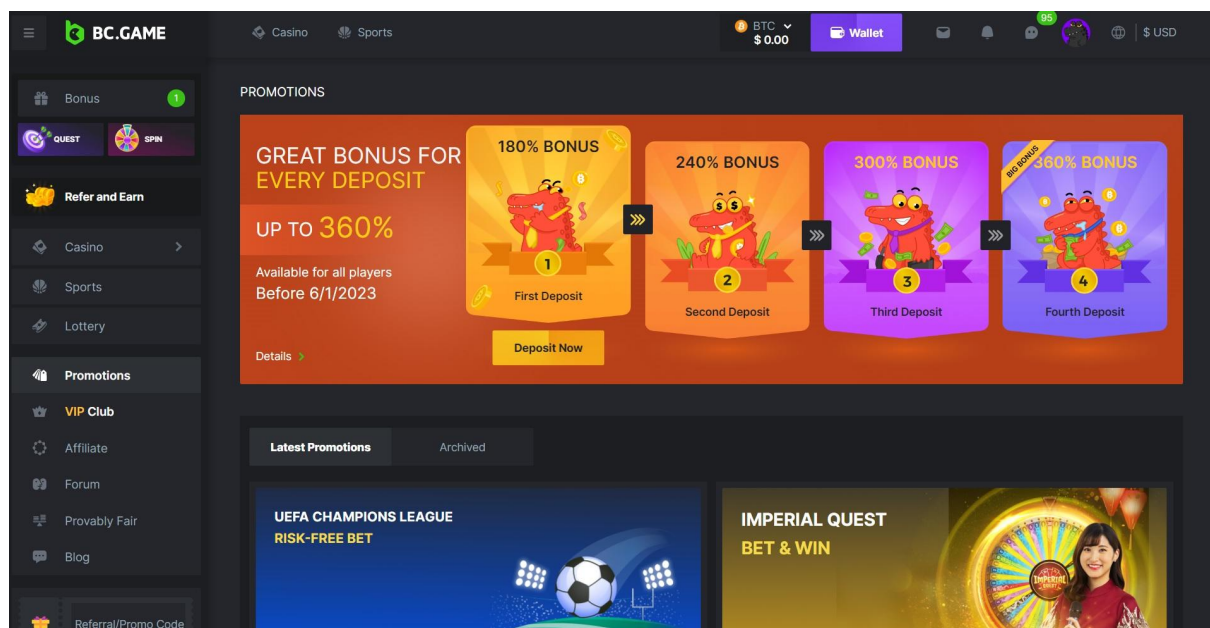

The promotion is located at the top left corner of the website right beside the Quest icon. Lucky Spin is an opportunity to earn rewards each 14-15 hours. Within this time frame, a new Lucky Spin is available after your latest one. You may spin the wheel and win up to 1BTC.

Lottery

There is a daily lottery that takes place at BC.Game with a daily jackpot of 100,000 USD. The way it works is players buy lottery tickets for 0.1 USD and choose numbers for each ticket. In case all of the numbers are matched, players receive big rewards.

Deposit Bonuses

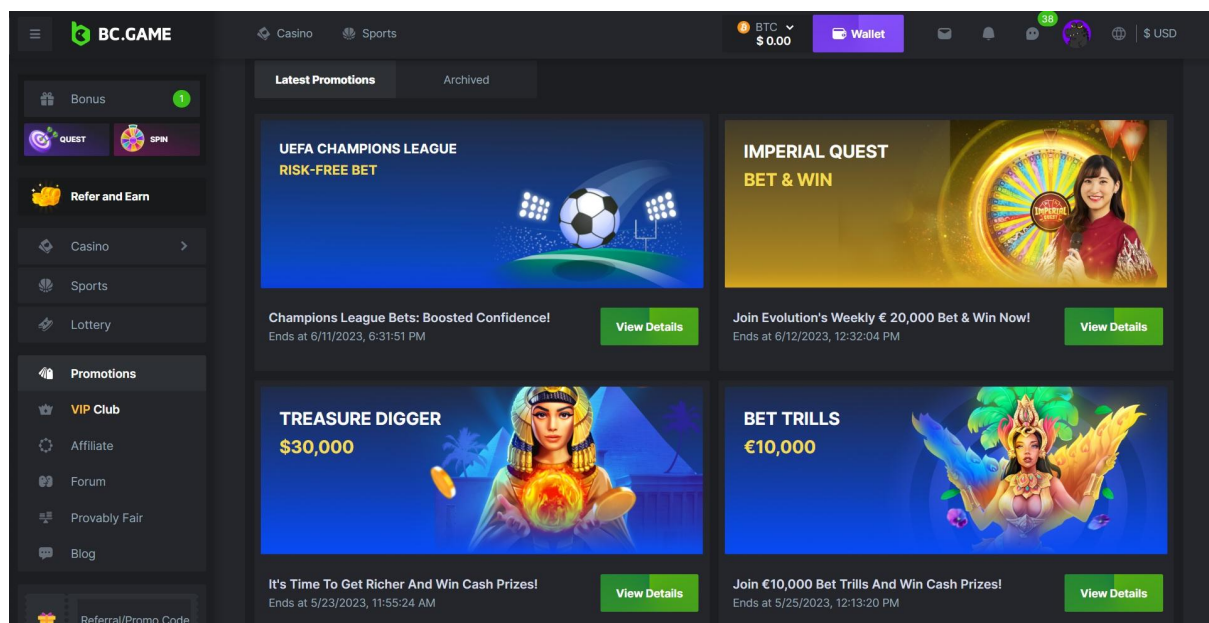

BC.Game stands out from other cryptocurrency casinos with its exceptional deposit bonus multipliers. It is rare to see bonus multipliers increasing until the 4th deposit, but this casino delivers exactly that. Offering a 180% match on the first deposit is already a huge opportunity for players to get more than in any casino on average. Not only that, a 240% bonus on the second deposit, a 300% bonus on the third, and 380% on 4th deposit - these offer an even better return on the player's investments.

Once you have deposited using the bonus promotion, you automatically receive the bonus amount in BC.Game's unique cryptocurrency - BCD. Your initial deposit will not be locked to the bonus until you wager it and you can even top-up to receive the promotion in case you have made a deposit that is less than the minimum required. Keep in mind that the minimum deposit for each bonus is different -

- 1st Deposit Bonus - 10 USD
- 2nd Deposit Bonus - 50 USD
- 3rd Deposit Bonus - 100 USD
- 4th Deposit Bonus - 200 USD

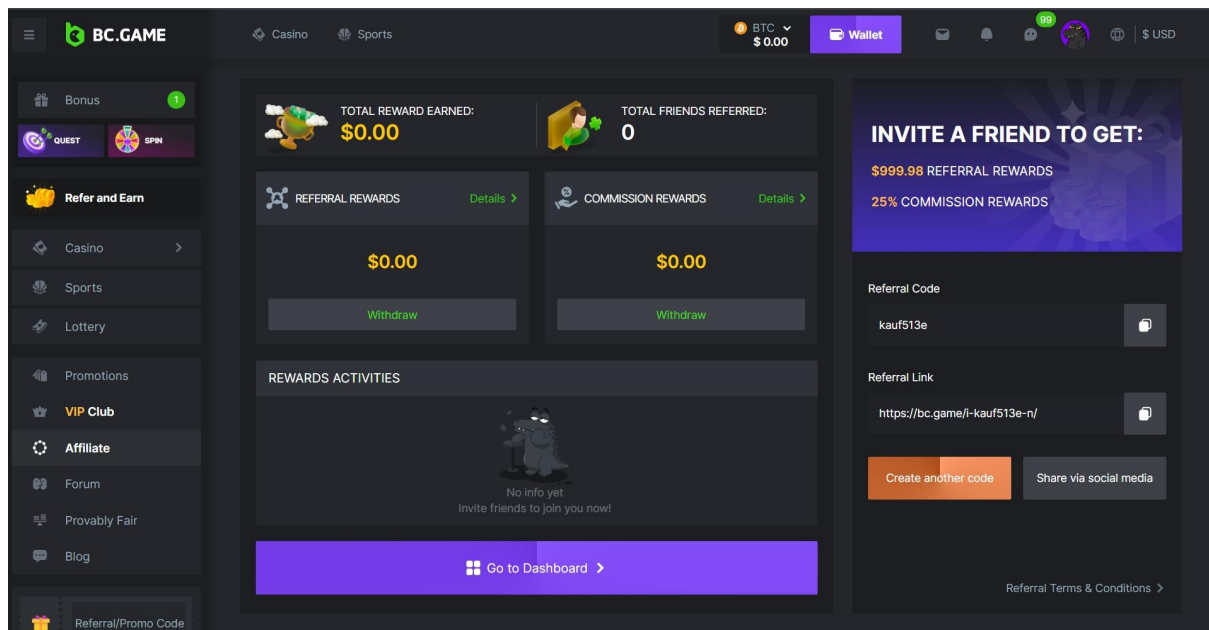

Events

These are bonuses that have a specific deadline. At this time, there are 12 such promotions available at BC.Game with various conditions and prizes that include free bets, cash prizes, free spins, etc.

The amount of free bet depends on your VIP level. We will examine BC.Game's VIP ladder in further sections.

User Experience

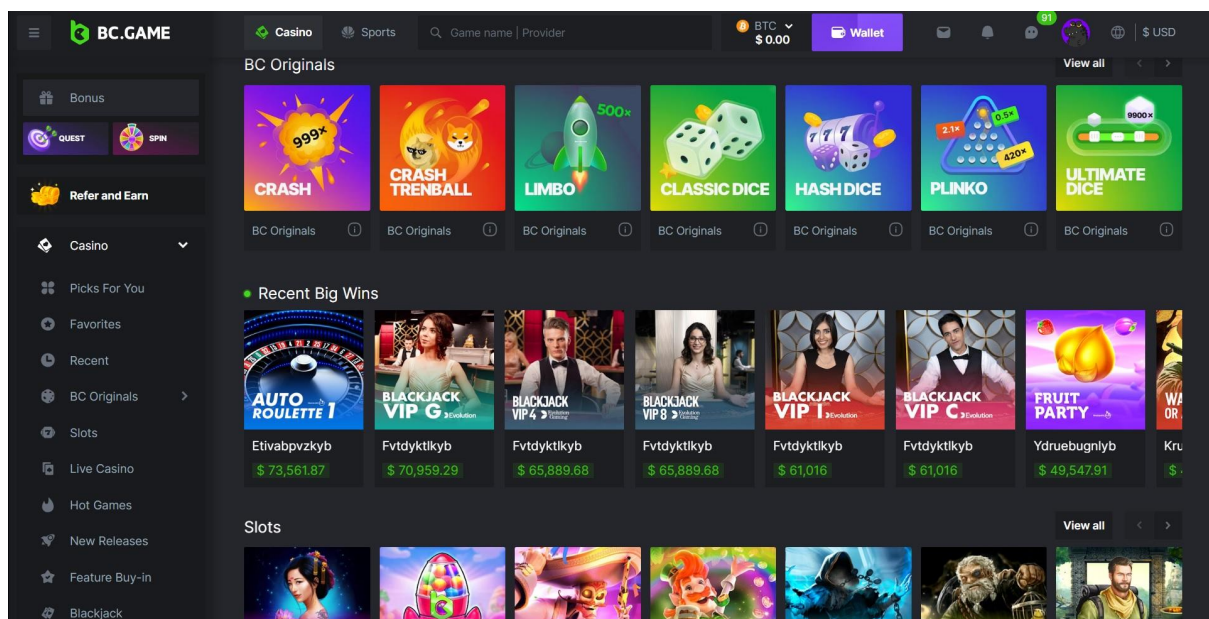

The user interface of BC.Game looks pleasant. There are two interface modes available:

- Dark-black theme that is designed for night use;
- The light-white theme for day use.

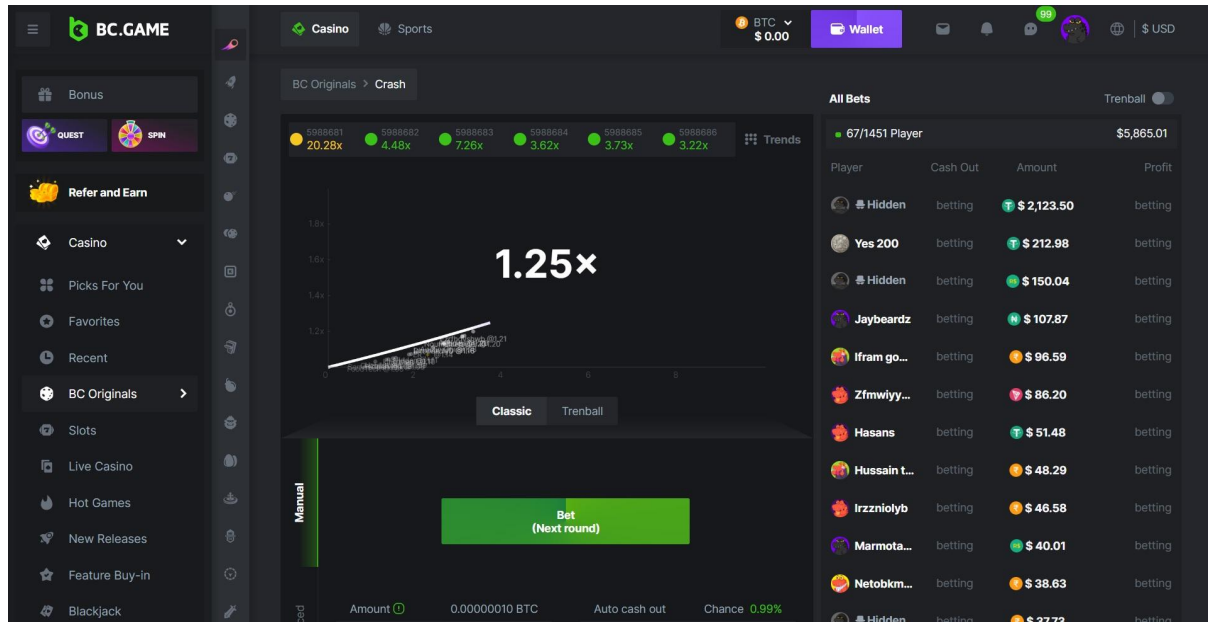

The website loading speed is decent, we have found no excessive lag during the transitions between the pages. On the top left corner, there is an interface minimizer - it allows the user to hide the left side menu and display icons instead of full denominations for each category. The main website components are two menus. One of them is located at the top of the website and the second menu is located at the left side of the site. The top menu displays Casino, Sports sections, balance, messages, notifications, player chat, and account icon. The section on the left displays website sections - Bonus, Quest, Spin, Casino, Sports, etc.
