- Russian – native
- English – beginner

## SUMMARY

I have some experience in creating interactive user interface websites using HTML5, CSS3, JavaScript and React. I can also work with Node.js libraries, package manager and use development tools like Git to collaborate effectively in a team. I want to gain new knowledge and skills to develop professionally and be successful in my career.

## PROJECT EXPERIENCE

- WebStudio, link (HTML, CSS, JS) A website with a responsive layout.
- FoodSta, link (HTML, CSS, JS, Parcel) Neat and tasty design, responsible layout. Team project.
- Movies, link (HTML, Style Components, JS, Axios, Parcel, React) Application with a movie search and save.
- Phonebook, link (HTML, Style Components, JS, Axios, Parcel, React, Redux). Application with a responsible layout for saved contacts.
