WEB3

- **Smart Contract** - Starting from **$4,000** (Custom contract)
  - Development (1 week)
  - RnD (3 week) - DD:TR

- **Web3** - Wallet Starting from **$35,000** (Custom Wallet)
  - Development (2 month)
  - Mobile Dev - 1.5 month
  - Blockchain - 1-2 weeks
  - Design - 2-4 weeks (?)
  - Back-end - 2 weeks (?)

- **DAO**
  Starting from **$41,200** (Custom Solution)
  Development 1,5 month
  - Blockchain 1,5 month
  - UI/UX 1-2 weeks
  - Front - 3 weeks
  - Back - 2-3 weeks
  - QA - 1-2 weeks
  - Architecture design (RnD) 2-3 weeks

WEB3

amber

- Decentralized applications (dApps) - DeFi, GameFi, Learn2Earn, etc. Starting from **$7,900** (Custom Solution)
  - Development 1 month+
  - Research, Architecture design (2-3 weeks)

- Trading Platforms (CEX, DEX) 4-5 month - Starting from **$39,600** (Custom Solution)
  - Development
  - Research
  - Architecture design
  - Documentation

- Complex GameFi solutions (Game Mechanics, Game Economy, etc.) -Starting from **$60,000**

- MVP Development Services **$50.000+** (in-depth work with start up teams and involvement into result and project KPI)

WEB2

Corporate Platforms

- Games (Web, PC) - Starting from **$27,200** (Custom Solution)
- Marketplaces, Online Retail - Starting from
- **$9,600** (Custom Solution)
- Custom Software Development - Starting from **$25,000** (Custom Solution)
- Web2 to Web3 Migration 3 months+ Starting from **$23,800** (Custom Solution)
- MVP Development Services **$50.000+** (in-depth work with start up teams and involvement into result and project KPI)

- IoT - Starting from **$825,000** (Custom Solution)
  IoT Integration with Cloud Platforms:
  - Service Description:Our company specializes in integrating IoT devices with cloud platforms, enabling real-time data collection, storage, and analysis.
  - Key Points:Expertise in integrating with popular cloud platforms such as AWS IoT, Google Cloud IoT, and Azure IoT Hub.
  - Secure and scalable cloud solutions for data processing and storage.
  - Real-time monitoring and control of IoT devices through cloud dashboards.

WEB2

● **IoT Device Integration with Mobile Apps:**
○ Service Description:We offer seamless integration of IoT devices with mobile applications, allowing users to monitor and control their devices remotely.

- Key Points:Customized mobile app development for iOS and Android platforms.
- User-friendly interfaces for real-time device status updates and control.

○ Push notifications and alerts for critical events.

● **TCP/UDP Protocol Implementation for IoT:**
○ Service Description:Our team excels in implementing efficient TCP/IP and UDP protocols tailored for IoT devices to ensure reliable communication.

- Key Points:Low-latency communication protocols optimized for IoT data transmission.
- Support for both TCP (reliable) and UDP (lightweight) communication.

○ Data encryption and security measures to protect IoT data in transit.

WEB2

● Custom IoT Solution Development:
○ Service Description:We provide end-to-end custom IoT solutions, from
hardware selection to software development and deployment.

- Key Points:Expertise in designing and building IoT hardware components.
- Firmware and software development for IoT devices.

○ Comprehensive testing and validation of custom IoT solutions.

Possible variants of cooperation:
- Product Design - Development
- Partial (feature, RnD)

- Full product development process
- Delivery & Support

- We guarantee your end users a stable, well-supported product.

WEB2

3 Main offers for September:

- MVP Development.
- Main USP of this option is that we are going deep into the product idea and product structure, we not only code, but develop this product and focus on enhancing your ideas. We take responsibility for the tech part of your product for you to think about your business goals.
- Starting from **$50,000+** - this price will include team of indisputable professionals which take care of your product and your ideas. Not just working nine to five guys.

- Smart Contract development
- Since our team has been in the crypto and blockchain sphere for more than 4 years, we don't hesitate to state that we are the right team of professionals which can cover your back in the smart contract development sphere.
- Price Starting from **$4,000**

- Web2 to Web3 transfer and integration of Web3 elements (Blockchain, Smart contract) to existing businesses
- Price starting from **$23,800**
