With the advent of gadgets, people began to devote less and less time to books, but it cannot be said that reading is unpopular. There are and always have been book lovers. The role of modern literature among the younger generation is no less important

Reading value

Reading plays a very important role in the life of people. It educates a person, enriches intellect, develop attention, form moral values. Besides, it's a wonderful way to spend our free time. Thanks to books we learn to express our thoughts and feelings more exactly.

"The reader lives thousands of lives before his life ends. A person who doesn't read will live only one"

My favorite book

This is a fantasy book “The night circus” by Erin Morgenstern. The book tells about a circus that appears on its own. People are so amazed by the circus and its actors. But no one knows that everything that happens is real magic.

**Conclusion:
my opinion**

«Reading takes us away from home,
but more importantly, it finds us a
home everywhere»
