PROFILE

Highly skilled and motivated web developer with a primary focus on frontend development transitioning into full-stack proficiency. Possessing 2.5 years of professional experience, I excel in crafting dynamic and responsive web applications. Proficient in a range of technologies including HTML, CSS, SASS, JavaScript, TypeScript, React.js, Next.js, Node.js with Express. Committed to delivering high-quality code and user-centric solutions to meet project requirements and exceed client expectations.

WORK EXPERIENCE

Front-end Web Developer

Akylly Chozgut   2021-2022

- Initiated as a frontend developer, contributing to the design and development of visually appealing and intuitive user interfaces for web applications.
- Transitioned into a fullstack developer role, taking on additional responsibilities in backend development and database management.
- Played a key role in optimizing website performance and enhancing user experience through the implementation of responsive design principles and advanced frontend techniques.
- Collaborated with designers and backend developers to integrate frontend components with backend systems, ensuring seamless data flow and functionality across the application.

Full-stack Web Developer

Ajayyp Tilsimatlar   2022-2024

- Spearhead the development of innovative web solutions, utilizing a full stack approach to ensure seamless integration between frontend and backend functionalities.
- Collaborate closely with cross-functional teams to understand project requirements and deliver tailored solutions that meet client needs.
- Utilize expertise in HTML, CSS, JavaScript, TypeScript, React.js, Next.js, Node.js with Express to develop robust and scalable web applications.
- Implement best practices in code optimization, testing, and debugging to maintain high standards of performance and reliability.
- Actively participate in code reviews and provide constructive feedback to team members to promote continuous improvement and learning..
