Contract proof ID: DD/MM/YY + V. xx

This Contract Proof is for colour approval. It will be Ball's production target

This contract proof has been printed on a Ball qualified calibrated printer on metal foil using the customer agreed Pantone references. After approval, Ball will match inks for the dry offset letterpress process used in can printing as closely as possible to the approved contract proof.
During the first commercial production run Ball will use this approved contract proof as the production target for colour. Minor deviation in colour and tonal values should be expected between this contract proof and commercial production cans. The customer whose signature appears below hereby certifies and agrees that this contract proof meets its expectation for colour and acknowledges, accepts and expressly agrees that there may be colour and tonal value deviation between the contract proof and commercial production cans. For the avoidance of doubt, any such deviation will not be deemed a breach of any agreement between Ball and the customer
