PROJECTS

Project name:

Rutape

Lead time:

Start time: 1 February 2022

End time: 14 November 2022

Description:

Rutape is a social networking and messaging platform built with Flutter, designed to connect users with their friends and share moments through photos and chats. The app offers a seamless and intuitive interface for users to create posts, add photos, interact with friends' content, and engage in real-time conversations.

Project name:

Swen

Lead time:

Start time: 15 September 2023

End time: 28 January 2024

Description:

Swen is a unique mobile application built with Flutter that aims to promote eco-investment and encourage individuals to actively participate in saving the environment. The app offers users the opportunity to invest in various eco-friendly projects, such as reforestation efforts, renewable energy initiatives, wildlife conservation programs, and more. In return for their investments, users earn "footprints" as a measure of their contribution to protecting ecosystems and combating climate change. App Store link : <https://apps.apple.com/am/app/swen-track-compare-offset/id6468068461>

Project name:

CatchApp

Lead time:

Start time: 10 September 2022

End time: 12 December 2022

Description:

CatchApp is a versatile mobile application built with Flutter that simplifies the process of adding friends from phone contacts and scheduling calls with them. The app provides users with a convenient platform to connect with friends, colleagues, and acquaintances, facilitating seamless communication and collaboration through scheduled phone calls.

Project name:

Habit

Lead time:

Start time: 2 October 2022

End time: 30 January 2023

Description:

Habit is a simple yet powerful app designed to assist users in breaking bad habits and building healthier ones. With a clean and intuitive interface, it offers tools and features to support individuals on their journey towards positive behavioral change.
