PROFILE

I am a Junior + software engineer with 1 year of project experience building scalable web platforms using React js, Vue js, Angular js for develop front-end part and using Node js, Nest js, Express, MY SQL, MongoDB, Rest API, JWT, PostgreSQL and also for developing back-end part. I have experience developing websites, applications, back-end parts , awesome front-end part and I have worked in various industries including e-commerce, IT school, Charity projects real estate. I am passionate about writing clean and user-friendly code, thrive in collaborative, agile environments, best practices.

EMPLOYMENT HISTORY

Nov 2024 — Oct 2025 Intern Full-stack Developer, Okten school, Remote
- Develop front-end interface using React js, Vue js, Angular js, delivering secure APIs, real-time data processing with Kafka, and optimized back-end services with PostgreSQL and Redis.
- Developed rich front-end interfaces using React.js with Tailwind CSS for responsive and fast-loading UI.
- Integrated JWT and OAuth2 for secure authentication and authorization on both frontend and backend.
- Leveraged PostgreSQL for structured data and Redis for caching frequently accessed data like product listings.
- Integrated Stripe and PayPal APIs for secure and seamless payment processing.
- Containerized applications using Docker and automated deployment using GitHub Actions CI/CD workflows.
- Followed clean architecture principles in both frontend and backend layers to ensure maintainable, scalable code.
- Participated in Agile ceremonies, collaborated with cross-functional teams, and mentored junior engineers on React and API best practices.
- Using for back-end side tech stack like Node js, Nest js, Express js, JWT, create clean back-end part ,middlewares ,authentication ,write test on Jest

Jan 2025 — Aug 2025 Junior Front-end Developer, Team challenge, Remote
- Developed real estate web platforms using React.js and Nest.js, Express, Node js delivering responsive user interfaces, secure APIs for listings and bookings, and scalable backend services with PostgreSQL.
- Built dynamic user interfaces using React.js and styled components with Tailwind CSS.
- Created interactive property pages and dashboards with React's component-based structure.
- Configured RESTful APIs in Node js for listings, bookings, and user data.
- Used JWT and OAuth2 to implement secure login and role-based access.
- Optimized PostgreSQL queries and indexes to boost performance for large datasets.
- Integrated Google Maps API to display real-time property locations on the frontend.
- Connected to OpenAI API to auto-generate property descriptions and reply templates.
- Scheduled bookings and notifications via cron jobs and SMTP email services.
- Worked together with consultants to improve UX through fast iterations and real-time feedback.

Dec 2023 — Present Full-stack developer, Freelancehunt, Remote
- Freelance projects

Dec 2023 — Present Full-stack Developer/Front-end, UpWork, Remote
- Freelance projects

EDUCATION

Sep 2020 — Jun 2024 Junior Bachelor, KHARKIV RADIO TECHNICAL FACTORY COLLEGE, Kharkiv
- Received secondary vocational education in the specialty "Software Engineering"

Sep 2024 — Jun 2027 Bachelor, Kharkiv Radiotechnical University, Kharkiv
- Received higher professional education in the specialty "Computer Engineering"

Dec 2024 — Dec 2025 Intern Full-stack/Front-end Developer, Okten school, Remote/Lviv

Mar 2025 — Jul 2025 Junior Front-end Developer, Hillel, Remote
- https://certificate.ithillel.ua/view/98161600

SKILLS
HTML (Expert), CSS (Expert), Java Script (Expert), Java Script Dom (Expert), Ajax (Expert), Jquery (Expert), React js (Experienced), Redux js (Experienced), Vue js (Experienced), React routers (Expert), React forms (Experienced),
React js -base (Experienced), React js -thunk (Experienced), Tailwind css (Skillful), Css modules (Skillful), Angular (Skillful), RESTful APIs (Skillful), JWT, OAuth2 (Skillful), Node js (Experienced), Express js (Experienced),
Nest js (Experienced), Php (Skillful), PostgreSQL (Skillful), My SQL (Expert), Mongodb (Experienced), Redis (Beginner),
Real-time Data with Kafka (Beginner), Docker (Skillful), Kubernetes (Skillful), Type Script (Experienced), Oracle (Beginner), Next js (Skillful), React hooks, Context (Experienced), Serverless (Skillful),
Amazon Web Services (Beginner), Serum (Expert), Kanban (Expert), German (Beginner), Ukrainian (Expert),
React Native (Beginner), Python(Django) (Beginner)

HOBBIES
Gym, Pilates, Swimming, Table games, Tennis

LANGUAGES
English (B2), Ukrainian (C2), German (A1)

INTERNSHIPS
Nov 2024 — Dec 2025 Intern Full-stack/Front-end developer, Okten school, Remote/Lviv
Mar 2025 — Jul 2025 Intern Front-end, Hillel school, Remote
