Professional Accounting and Financial Services (IAPBE DipAFR – Advanced Financial Reporting)

With the international DipAFR (Advanced Financial Reporting) qualification from IAPBE, I deliver a full spectrum of high-level accounting and financial services, transforming data into a strategic asset for business growth. My approach combines precision, transparency, and analytical depth, giving clients confidence in every financial figure.

Core competencies and services include:

- Preparation and analysis of financial statements in accordance with international standards (IFRS/IAS), tailored to meet investor and regulatory requirements;*
- Development of detailed management reports and analytical dashboards for effective monitoring and planning;*
- Financial modeling and forecasting to support strategic decision-making and risk assessment;*
- Evaluation of company financial health and development of key performance indicators (KPIs);*
- Optimization of financial processes, implementation of internal control systems, and compliance procedures;*
- Audit preparation and liaison with external auditors;*
- Support for mergers, acquisitions, and corporate restructuring.*
- I aim not just to maintain accounting records but to create value through financial information, empowering companies to make informed decisions and confidently grow their business.*
