

Arman Apresyan

FULLSTACK-DEVELOPER (REACT. JS / NODE. JS)

Armenia | Mail: apresyanarman44@gmail.com | Telegram: @armanapresyan1

OVERVIEW

Full-Stack Developer (React / Node.js) with 5+ years of web development experience, including 4+ years in frontend (React, Next.js) and 2 years building backend services with Node.js (NestJS, Express). Focused on scalable applications, API design, and performance optimization across the full stack.

EDUCATION & LANGUAGES

YEREVAN STATE UNIVERSITY

Informatics and Applied Mathematics

Armenian — Native

Russian — Upper-Intermediate (B2)

English — Upper-Intermediate (B2)

TECHNICAL SKILLS

- Frontend:** JavaScript, TypeScript, React.js, Next.js, Redux, Zustand, MobX, HTML5, CSS3/SCSS/CSS Modules, Material UI (MUI), Ant Design, Design Systems & UI Kits, Vite
- Testing:** Jest, React Testing Library
- Backend:** Node.js, Nest.js, Express, WebSockets, Redis, Swagger (OpenAPI), Nginx (basics)
- Databases:** PostgreSQL, MySQL, MongoDB, NoSQL

WORK EXPERIENCE

Fullstack- Developer | CodeLines

Jan 2025 - present

- Built high-density admin dashboards using React and Ant Design.
- Designed and implemented REST APIs with Express/NestJS.
- Optimized PostgreSQL/MySQL queries and designed MongoDB schemas.
- Implemented background jobs with Redis to improve system performance.
- Integrated Next.js (SSR) with backend logic to enhance Core Web Vitals.
- Architected state management with Redux Toolkit and custom middleware.

Frontend-Developer | eWorks

Jun 2022 - Dec 2024

- Led migration from Webpack to Vite, improving build speed and developer experience.
- Switched from Redux to Zustand, reducing boilerplate and improving application performance.
- Designed and implemented a scalable Design System using MUI and CSS Modules.
- Established testing standards with Jest and React Testing Library.
- Mentored junior developers in React, TypeScript, and SCSS architecture.

Junior Full Stack Developer | AltaCode

Jan 2021 - May 2022

- Developed reusable UI components with React and MUI.
- Contributed to migration from JavaScript to TypeScript, improving code reliability.
- Ensured cross-browser compatibility and responsive layouts using CSS Modules.
- Wrote unit tests with Jest for UI and business logic.
- Designed and implemented REST APIs with Node.js and Express.
- Added unit tests for backend logic using Mocha to ensure API stability.
