

**Environment:**

Windows 11(Chrome);Wi-Fi

**Location and name of the error/bug:**

Straps-The "Colors" filter shows price ranges instead of colors

Precondition:The user has logged into their account on

**Steps:**

1. Open https://www.....
2. Select the category "Belts".
3. Click on the word "Belts" to open a pop-up window.
4. In the pop-up window, select the option "Colors".

**Expected Result:**

A list of filters by belt color (for example: black, brown, red, etc.) is displayed.

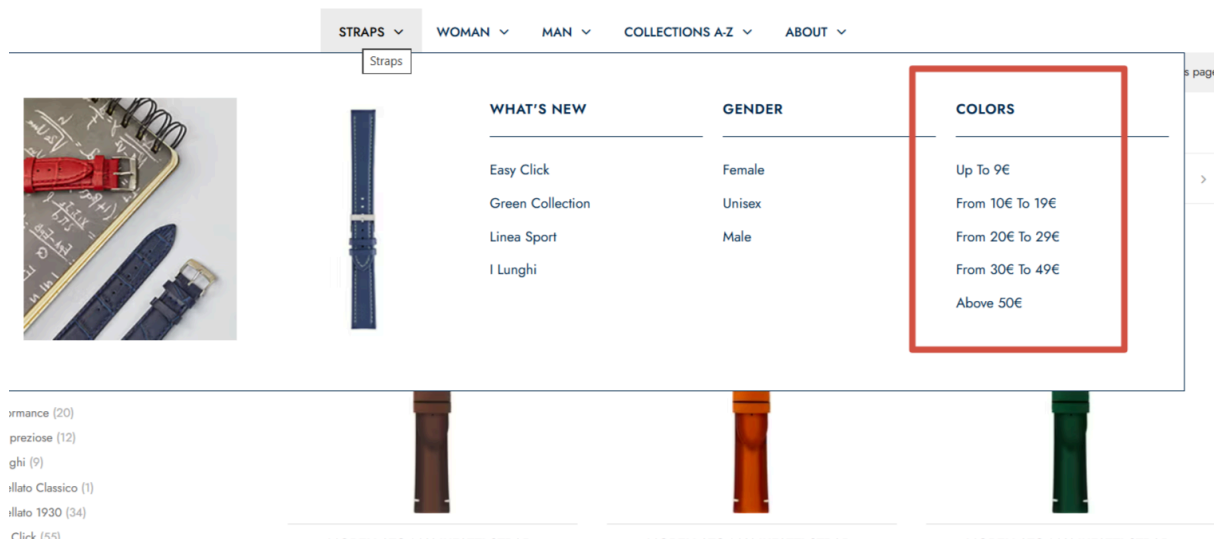

**Actual Result:**

Price ranges are displayed instead of colors (up to €9, up to €10, up to €19, from €20 to €29).

The filter does not match the title "Colors".

Note / Additional information:

The page shows belts of different colors, but there is no way to filter them by color.

**Comment:**

This is a critical logical inconsistency that ruins the user experience. The system blocks customers from filtering products by color, while confusing them with price ranges under a "Colors" title.
