PROFILE

Full-stack developer with experience in building and maintaining web applications using modern technologies. Focused on creating responsive, user-friendly, and efficient solutions for business needs.

EXPERIENCE

FULL-STACK DEVELOPER

SEP 2023 - PRESENT

QULIX SYSTEMS

Develop and maintain full-stack web applications from scratch. Build front-end interfaces with React and Next.js, design REST APIs with ASP.NET Core, and manage data with EF Core and PostgreSQL. Focus on performance, code quality, and end-to-end feature delivery.

FULL-STACK DEVELOPER

MAR 2023 - AUG 2023

INNOWISE GROUP

Took part in full-stack development of web applications, contributing to front-end implementation, REST API integration, and back-end feature support. Involved in the full development cycle: feature implementation, bug fixing, code review, and product improvements in a collaborative team environment.

PROJECTS

CORPORATE WEBSITE

Developed and maintained a corporate website, integrating front-end functionality with CRM systems and improving data flow. Implemented basic SEO practices, fixed issues in website behavior, and contributed to performance and usability improvements.

Tech stack: TypeScript, Gatsby, React, SCSS, Git, Nginx, Webpack, Tailwind CSS.

E-COMMERCE SERVICE

Built an e-commerce application with user authentication, product catalog, cart, and order processing features. Integrated payment functionality and worked on secure and reliable transaction flows.

Tech stack: Next.js, TypeScript, Tailwind CSS, shadcn/ui, Zod, React Hook Form, Zustand, C#, ASP.NET Core, Entity Framework Core, PostgreSQL, JWT
